Community Notices

The Board at its meeting last Monday has defined what items are eligible for inclusion in community notices.

- The organisation must be non-profit
- The item must be for upcoming events or a fundraiser or such other item that the Board considers of vital interest to the public.
- They must include the date and time of the event
- The item must be no longer than 30 secs total.

This definition will be used for all community notices from the above date.

Notices submitted will be edited to ensure the on air presentation is acceptable. Graham Bell will oversee the editing and production in consultation with other production team members.

Graham Johnston
Chairman
